The best Surgeon in Los Angeles. Operated on my brother few years ago. My wife a couple years later now another family member. Not only the most amazing Doctor an amazing person and beyond caring. The respect of the nurses is always key to watch for and never met one on all 3 Long stays at the hospital that didn't admire him endlessly. I would trust him with my life - literally. There is a reason LA s most famous go to him when they can afford anyone. He doesn't have the ego problem so common with LA surgeons. He's not only in the 1pct of best surgeons in the USA he's in the top 0.001pct.

Dr Bilchik removed my gallbladder on a day when his team usually doesn't do surgeries. He was being flexible to help me get out of the hospital ASAP, so that I could get back home to my 11 year old son who is on the autism spectrum and is very attached to me. His bedside manner was first-rate, and I felt like I was in the hands of a tip-notch surgeon. He also took the time to explain things to me as opposed to rushing through the visit.

Ranked top 1% of physicians in the country, Professor of Surgery and Chief of Medicine at the John Wayne Cancer Institute, internationally recognized surgeon and scientist who has pioneered techniques to improve staging in colon cancer, I recommend Dr. Bilchik, who is also a great guy.

It is likely you will never come across a Doctor like Dr. Bilchik. He is simply the best there is. Fantastic education, fantastic medical skills, fantastic patient communication skills. When he sees you, it really feels like he just has 1 patient--you.

He is caring for my mother and my husband. He is really a Godsend and nothing less.
