Data Accuracy

Leapfrog Hospital Survey Results are publicly reported on Leapfrog's website and used by purchasers and consumers, regional and national health plans, transparency vendors, and researchers. The accuracy of the data we publish and distribute is of utmost importance. Leapfrog has several protocols in place to verify the accuracy of our results. Each protocol is described in detail below.

- Affirmation of Accuracy
- Warnings in the Online Hospital Survey Tool
- Extensive Monthly Data Verification
- Monthly Documentation Requirements
- On-site Data Verification

Leapfrog Hospital Survey Binder

The Leapfrog Hospital Survey Binder was originally designed for those hospitals that have been selected for Leapfrog's On-Site Data Verification, however, the Leapfrog Hospital Survey Binder document (PDF) is available for use by all hospitals to collect, organize, and record information during the completion of the Leapfrog Hospital Survey. The document, which is divided into 10 tabs (or sections), one for each section of the Survey, can be printed and placed in a binder. The information is helpful when completing subsequent year's Surveys, in staff and leadership transitions, and as a historical record. The use of the binder also acquaints hospitals with the elements of On-Site Data Verification.

Influencing Health Care

When hospitals say, "I'm sorry"...

For nearly a decade, Leapfrog has leveraged the voice of purchasers to ensure hospitals take responsibility for serious errors.

About The Leapfrog Group

The Leapfrog Group is a nonprofit watchdog organization that serves as a voice for health care consumers and purchasers, using their collective influence to foster positive change in U.S. health care. Leapfrog is the nation's premier advocate of transparency in health care—collecting, analyzing and disseminating data to inform value-based purchasing and improved decision-making.
